

E-NEWS ALERT

Revised Federal Guidance on Essential Workforce

TO: FAMA and FEMSA Members
FROM: FAMA/FEMSA GAC Co-chairs: John Granby, Lee Morris, and David Durstine
DATE: March 30, 2020

On Saturday, March 28, 2020, DHS Cybersecurity and Critical Infrastructure Agency (CISA) released updated Guidance on Essential Critical Infrastructure Workforce. Previously, we had sent you the first two versions which contained relevant information under the “Critical Manufacturing” section. The third version, released last Saturday, includes additions that may also pertain to FAMA and FEMSA members under the category of Law Enforcement, Public Safety and Other First Responders. Specifically the language reads, in part:

- Workers – including contracted vendors -- who maintain, manufacture, or supply equipment and services supporting law enforcement emergency service and response operations (to include electronic security and life safety security personnel).
- Workers supporting the manufacturing of safety equipment and uniforms for law enforcement, public safety personnel, and first responders.

The latest version of the document can be found here:

<https://www.cisa.gov/publication/guidance-essential-critical-infrastructure-workforce>

GAC Co-chair John Granby has served as our liaison with the CISA office. The GAC will continue to monitor further developments in this area.
